

ABOUT

Our candidate is a capable and highly motivated engineer who has gained a wide range of qualifications and experience since leaving the Armed Forces in 2016. A versatile and natural team leader who always remains flexible and approachable in ever changing circumstances, understanding pressures in a fast-paced environment. Excellent communication skills encouraging an open door communication within the team.

Our candidate's 12 year Military career included the light dragoons along with a tour in Afghanistan.

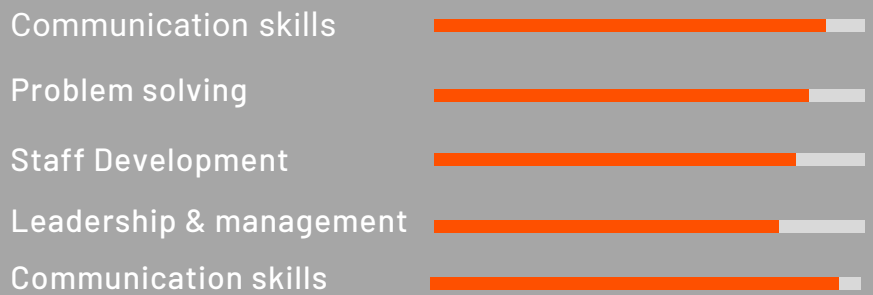

Since leaving the Military he has worked for BT and Hitachi rail group. Learning fibre optic, then heavy wheeled utility vehicles adding to his vast knowledge and experience.

Our candidate has also been working towards his CPC to enhanced his HGV experience.

We feel that he will be a huge asset to any organisation as he brings such a varied and diverse skills set and life experience.
